

11-11-19

Honorable Judge George J. Hazel

NOV 15 2019

My name is Bryant Davidson I.D. 1580499 and

I am writing to the District Court under case no GJH-19-885. Since I initially filed this petition there have been a series of developments that have impacted my ability to adequately and properly respond. I have had the sight from my right eye taken from me by Officer Eugene Early (previously misspelled Erle whom I originally stated assaulted me after falling from top bunk after having a seizure episode that is the result of the Feb 25, 2019 car accident I was in at the time of my arrest.) Officer Eugene Early of 7-3 shift and the Tactical Response Team ^{member} assaulted me for a second time after entering my 3 North B side day room at 3:45 AM (possibly earlier please see readily available footage for 10-5-19 at 3:30-3:45 am 3 North tower B side video please subpoena video) and standing back near the officers desk and not searching anyone else's cell but mine and waiting until my cell buddy, Michael Moore I.D. is searched first by his colleague's and then when it's my turn he comes to participate in the search. His fellow officer, Officer Pears asks my cellmate Michael Moore to push my wheelchair in the cell and asked him to help me to transfer from wheelchair to bed but he refuses based on a previous injury helping me that lead to a x-ray being ordered of his arm. (See footage from 10-5-19 of Reeshall and entrance of plaintiff's cell, cell 11B that shows how long the plaintiff's cell buddy stayed in the cell which shows he was only there to help the plaintiff transfer otherwise why was he there because I wasn't in the cell when he was being searched) He my cellmate was asked to leave then I was ordered to get on my bunk by Officer Early when I told him I physically couldn't I was mazed in the eye and then punched in that same eye when I attempted to wave off another assault by the officer. I can't see and it's been over a month and still medical Dept has refused to let me see a optomologist or to be taken to the emergency room. On October 18, 2019 I saw Dr Michael Agonafer, MD at 10:33 PM whom I told I could not see out of right eye and I was wearing a bandage that was large as a eye patch yet his report that day claimed I did complain of anything and denied wearing a "eye patch" so I am

requesting that the video footage for that day 10/18/19 at 10:33pm.
be gotten of me being escorted by a officer to medical (officer
is pushing my wheelchair because I am unable to due to
pain to the medical Dept and the video will clearly
show I am wearing a eye patch) It is crucial that this
court see blatant "Obstruction of Justice" by these doctors
and correctional officers. The doctor, Dr Agonafir blatantly lied
with no problem and the video will show I did have a
eye patch so it would make no sense that I would deny
wearing a eye patch if I am on camera entering his very
Office with a bandage that was big enough to cover my
eye, thus making it a eye patch. Also I have been denied
attorney visits because I couldn't push myself to the visiting
room area because of severe pain and when I asked for
a correctional officer or nurse to push me they both stated
they dont have officers or nurses that can do that
in this facility. However I am on video for 10/18/19
being pushed in my wheelchair by the very people whom
say they dont have anyone that does this. All my property
has been taken from me that consisted of pen, paper, envelopes,
Stamps, Legal mail - that was sent white. I was housed at M.T.C. 954
Terrest St, Balt, MD 21201. Cosmetics and clothing. These items are
fundamental to me being able to respond to this court that
is why the plaintiff employs this court to provide counsel because
counsel cant be suppressed as I am and motions, evidence and
request for evidence wont be hindered by the denial of these items as
they are now (thats why I am literally writing this court on the back
of institutional Pickleball slips) I can only see out of one eye I
am not being given medical treatment and I dont sleep because I am
afraid I will be killed next time or send a prison from the
Court that can get my evidence consisting of amended complaints
and Affidavits instead of having to get inmates to allow me to send
mail out in their names. I have a constitutional right to Due Process
but now is that the case and the very "Due Process" I am requesting
is already being denied by these defendants so as to get my case dismissed.
Please I need to have these officers and nurses "charged" with Civil Rights violations!
